CONTENTS

J. N. KAPUR	: Tributes to the Memory of late Professor A. Narasinga Rao	1
J. N. KAPUR	: Some excerpts from the writings of late Professor A. Narasinga Rao	11
S. E. DICKSON	: Some remarks on Local Commutativity in Topological Groups	21
R. Lalitha	: A Note on the Lattice Structure of T_1 Topologies on an infinite set	29
P. K. SHARMA	: A Generalisation to Normality	35
SOMASHEKHAR AMRITH NAIMPALLY	: Hyperspaces of Invertible Spaces	39
C. F. MOPPERT	: Remarks on Linear Differential Equations	43
KENNETH S. WILLIAMS	: An Elementary Number-Theoretic Formula	47
P. KESAVA MENON	: On A Theorem of Kakeya	51
P. KESAVA MENON	: An Extension of Euler's Function	55
Y. SANKARAN	: On the average order of the Arithmetical Function $L(n)$	61
P. PADMAVATHY	: On A Generalisation of Wilson's Theorem	65
J. M. GANDHI	: Congruences for Restricted Partitions on a Number	69
S. N. MEHROTRA	: On Sums of Powers	73
A. M. VAIDYA	: An Inequality for Euler's Totient Function	79
R. P. SINGH	: An Integral Equation Involving Generalized Legendre Polynomials	81
V. V. SUBRAHMANYA- SASTRI	: A Result Concerning the Euler's Function	85

K. NIRMALA	: Remarks on Singal-Ram Behari's and Hsiao's Normal Curvatures of a Congruence of a Certain Form	89
D. SURYANARAYANA	: On the Non-Existence of odd perfect Numbers of a Certain Form	95
B. S. YADAV	: A Theorem of Titchmarsh on Fourier Transforms	99
S. L. GUPTA	: Integrals Involving Bessel Coefficients of two Variables	107
MANSOOR AHMAD	: A note on a Theorem of Hartman and Winter	115
A. R. PADMANABAN	: Some results in measure theory	127
M. S. RANGACHARI	: On the relation of Cesaro Summability to Riemann-Cesaro Summability	133
REKHA CHATTERJEE	: A Rule in operational Calculus	141
R. K. Wasan	: Behaviour of a complex system with regard to dependability	147
N. Ch. PATTABHI RAMCHARYULU	: Unsteady flow of a viscous liquid	155
R. D. BHARGAVA AND H. C. RADHA- KRISHNA	: Spherical and cylindrical inclusions in concentric matrices under uniform tension	159
G. S. SINGH	: Flow of visco-elastic maxwell fluid through two porous concentric circular cylinders	171
V. V. SUBRAMANYA SASTRI	: On some properties of partitions	177
G. PURSHOTAM AND R. VENU- GOPALA CHARI	: Common Streamline patterns for certain classes of spatial flows	193
D. SURYANARAYANA	: Certain Diophantine Equation	197
M. G. INAMDAR	: A note on the solution of the cubic equation	199
T. V. LAKSHMI- NARASIMHAN	: On an extension of Taylor's formula	200
D. RAMESHWAR RAO	: On Trisecting special angles by ruler and compasses	202

RICHARD K. GUY	: The Primes 1093 and 3511	204
SADANAND VERMA	: On an integrating factor of total Differential Equation	206
G. NAGABHUSHAN	: On the adjugate of a Singular Matrix	208
M.S.R. ANJANEYULU	: Expressions for radial and transverse components of velocity and acceleration	209
C. C. YALAVIGI	: Nature of the roots of a cubic equation	210
E. R. CALABIELLO	: Cybernetics	213
P. L. BHATNAGAR	: Presidential Address	235
P. L. BHATNAGAR	: Presidential Address	247
P. L. BHATNAGAR	: Presidential Address	257
	Abstracts of Papers	271
