174

THE MATHEMATICS STUDENT

EDITED BY
J.N. KAPUR

with the assistance of
M.K. SINGAL AND S.K. GUPTA

VOLUME XXXVI, NUMBERS 1, 2, 3 AND 4
JANUARY—DECEMBER 1968

(Issued December 1969)

PUBLISHED BY
THE INDIAN MATHEMATICAL SOCIETY

CONTENTS

P. L. Bhatnagar	: Professor A. C. Banerji	1
	Proceedings of the 32nd Conference of the Indian Mathematical Society	**3—51**
R. S. Varma	: Presidential address—general	3
R. S. Varma	: Mathematics, biology and information theory	8
	Abstracts of Papers	30
J. N. Kapur	: Symposium on mathematical programming—introductory remarks	52
N. K. Gogia	: Revised simplex algorithm for the linear fractional functional programming problem	55
Kanti Swarup	: Fractional programming	58
S. K. Gupta and C. R. Bector	: Nature of quotients, products and rational powers of convex (concave) like functions	63
R. N. Kaul	: An extension of upper bounded techniques for linear programming	68
M. K. Singal	: $\aleph$—paracompact spaces	76
	Proceedings the 33rd Conference of the Indian Mathematical Society	**87—155**
R. S. Varma	: Presidential address—general	87
R. S. Varma	: Recent contributions in information theory	93
	Abstracts of Papers	112
J. N. Kapur	: Exact solutions of basic equations of fluid dynamics obtained by using the principle of superposability	132
Bruce A. Barnes	: Certain representations of the algebra of all bounded operators on a Hilbert space	141
J. N. Kapur	: The role of Indian Mathematical Society in the development of mathematics in India	149
F. B. Knight	; Diffusion in one dimension and Brownian motion	156
N. Ch. Pattabhi Ramacharyulu	: An exact solution of the equations of motion in two-dimensions of a visco-elastic liquid	171
N. K. Sharma	; Subspaces of a special kawaguchi space	177

K. NIRMALA	: Remarks on Singal-Ram Behari's and Hsiao's Normal Curvatures of a Congruence	89
D. SURYANARAYANA	: On the Non-Existence of odd perfect Numbers of a Certain Form	95
B. S. YADAV	: A Theorem of Titchmarsh on Fourier Transforms	99
S. L. GUPTA	: Integrals Involving Bessel Coefficients of two Variables	107
MANSOOR AHMAD	: A note on a Theorem of Hartman and Wintner	115
A. R. PADMANABAN	: Some results in measure theory	127
M. S. RANGACHARI	: On the relation of Cesaro Summability to Riemann-Cesaro Summability	133
REKHA CHATTERJEE	: A Rule in operational Calculus	141
R. K. Wasan	: Behaviour of a complex system with regard to dependability	147
N. CH. PATTABHI RAMCHARYULU	: Unsteady flow of a viscous liquid	155
R. D. BHARGAVA AND H. C. RADHAKRISHNA	: Spherical and cylindrical inclusions in concentric matrices under uniform tension	159
G. S. SINGH	: Flow of visco-elastic maxwell fluid through two porus concentric circular cylinders	171
V.V. SUBRAHMANYA SASTRI	: On some properties of partitions	177
G. PURSHOTHAM AND R. VENUGOPALA CHARI	: Common Streamline patterns for certain classes of spatial flows	193
D. SURYANARAYANA	: Certain Diophantine Equation	197
M. G. INAMDAR	: A note on the solution of the cubic equation	199
T. V. LAKSHMINARASIMHAN	: On an extension of taylor's formula	200
D. RAMESHWAR RAO	: On Trisecting special angles by ruler and compasses	202

RICHARD K. GUY	: The Primes 1093 and 3511	204
SADANAND VERMA	: On an integrating factor of total Differential Equation	206
G. NAGABHUSHAN	: On the adjugate of a Singular Matrix	208
M.S.R. ANJANEYULU	: Expressions for radial and transverse components of velocity and acceleration	209
C. C. YALAVIGI	: Nature of the roots of a cubic equation	210
E. R. CAIANIELLO	: Cybernetics	213
P. L. BHATNAGAR	: Presidential Address	235
P. L. BHATNAGAR	: Presidential Address	247
P. L. BHATNAGAR	: Presidential Address	257
	Abstracts of Papers	271
	Book Reviews	291
