THE MATHEMATICS STUDENT

EDITED BY
M.K. SINGAL

VOLUME XXXIX, NUMBERS 1, 2, 3 AND 4
JANUARY—DECEMBER 1971

(Issued December 1972)

PUBLISHED BY
THE INDIAN MATHEMATICAL SOCIETY

CONTENTS

NARANIENGAR, M. T.	: V. Ramaswami Aiyar, the founder of the Society	(i)-(iv)
BANERJEE, MIHIR B. AND JAIN, R. K.	: On the stability of spiral flows	1
TRIPATHY, N.	: On products of summability methods	4
TIWARI, GIRIRAJ	: Effects of couple-stresses on the propagation of harmonic waves in an infinite elastic cylinder	13
TULPULE, V. S.	: The inverse of a special matrix	18
YALAVIGI, C. C.	: A note on the integral solutions of $N=(x^4-y^4)/(z^4-v^4)$	21
CHANDRA, M. AND KAUL, R. N.	: On Farkas' theorem in complex space	24
PATEL, A. B.	: A note on the solution of biquadratic equations	27
YALAVIGI, C. C.	: On a problem for solution	29
SAPRE, A. R.	: A note on orthogonal series	31
RAMESHWARA RAO, D.	: A property of triangles	35
SAPRE, A. R.	: Another note on orthogonal series	37
BANERJEE, MIHIR B.	: Thermal instability of nonhomogeneous fluids	41
WALSTROM, J. E. AND WALSTROM, C. L.	: Special cases of FLT for the beginning student	49
KRISHNA, H. V.	: On Mersenne and Fermat numbers	51
SINHA, B. B.	: On H-projective curvature tensor in an almost product and almost decomposable manifold	53
BALASUBRAMANYAM, G.	: On θ -pedal circles of isogonal conjugates	57
RAMESHWARA RAO, D.	: Dissection of some triangles	61
SUBRAMANYAM, S. S.	: Oblique pedal lines of cyclic polygons II	73
GUPTA, R. S. AND SHARMA, J. P.	: A few numerical solutions of the Lane-Emden equation of index 5	80
BHATIA, B. L.	: On the construction of three-dimensional solutions of gasdynamics from two-dimensional solutions of gasdynamics	85
SHAH, A. P.	: Subscripts of A-gonal numbers which are squares	94

- List of recent Ph.D's in mathematics 99
 List of our new members 103
 DALAL, S. S. : Thesis abstract—Entire and meromorphic functions and entire functions defined by Dirichlet series 111
 : Presidential address—(General) 113
 BAMBAH, R. P. : Geometry of numbers, packing and covering and discrete geometry 117
 Abstracts of papers 131
 ALTER, RONALD : On a property of polynomials 159
 SINGH, V. P. : A note on the propagation of shock waves in an exponentially decreasing medium 161
 KRISHNA, H. V. : Integral solutions of $(m-d)x^2 + my^2 = (m+d)z^2$ 166
 BHATIA, B. L. : Axially-symmetric hydromagnetic super-possible flows 167
 BHANDARI, RAMESH : A simple problem on frequency of repetition of integers 181
 GUPTA, RAM NIWAS : A note on commutativity of rings 184
 SIVARAMAKRISHNAN, R. : On three extensions of Pillai's arithmetic function $\beta(n)$ 187
 RUKMANGADACHARI, E. : On the solution of some general algebraic equations 191
 News and Announcements 193
 Book reviews 195
 SRINIVASIENGAR, C. N. : M. T. Naranengar: A life sketch 201
 MERKES, E. P. : Typically-real polynomials of small degree 205
 AND WRIGHT, D. J. : A note on pell sequence 207
 KRISHNA, H. V. : Programme of the 36th conference of the I.M.S. 209
 VENKATARAMAN, M. : Substance and form 211
 PARTHASARATHY, K. R. : The imprimitivity theorem of Mackey and some of its applications 222
 NAIMPALLY, S. A. : Applications of proximity spaces to topology 235
 Abstracts of papers 239
 SUBRAMANIAN, H. : The non-cut points in a non-degenerate continuum 295
 BALLEW, DAVID W. : The construction of projective ideals 297
 MUKHERJEE, N. P. : A new characterization of the hyper-center of a finite group 299

- : A proposition on connected spaces 303
 DESHPANDE, M. V. : The rate of change of hypervolume is hypersurface 305
 ADIKESAVAN, A. S. : On Euler summability 308
 : A theorem on direct products 311
 BOLLINGER, RICHARD C. : A note on the propagation of shock waves in non-homogeneous medium 314
 HIRSHON, R. : Some new transformations and reducible cases of Appell's double series and their generalizations 319
 SINGH, V. P. : A note on self-numbers 327
 SRIVASTAVA, G. P. : Properties of $\{L_n\}_0^\infty$ 329
 JOSHI, V. S. : A note on D. H. Lehmer's solution of the Tarry-Escott problem 331
 YALAVIGI, C. C. : Determination of latitude and north polar distance of a star 334
 SINHA, T. N. : A note on the ejected matter in the plane of the galaxy under force laws by Parenago & Schmidt 337
 BAGOHI, AMAL KUMAR : A diophantine equation 339
 GURTU, S. K. : A problem in permutations and Stirling's numbers 341
 BHASKARANANDHA, C. N. : On sub-manifolds of a locally decomposable Riemannian manifold 346
 GUPTA, HANSRAJ : Transformation for a special class of matrices to diagonal form 351
 MISHRA, R. S. AND KUSHWAHA, R. D. S. : Equal sums of like powers 355
 PRABHU, SWARNALATA : An inversion theorem involving determinants 359
 SINHA, T. N. : A non-extendable homeomorphism 363
 GUPTA, S. L. : Almost complex structures in the cotangent bundle space over almost contact manifolds 365
 POTOCZNY, HENRY : A linear equation and its relation to the problem of equal sums of like powers 376
 MATHAI, SARAMMA : A note on the torsion of an elliptic cylinder 379
 SINHA, T. N. : Some theorems concerning the k-ary divisors of an integer 384
 CHANDRA SEKHARAIAH, D. S. : Perspective triangles in cubics and their polarity in the plane over GF(3) 395
 SURYANARAYANA, D. : Intersecting circles 399
 BASU, NIRMAL KUMAR : Intersecting circles 399
 BURGONEY, F. D. : Intersecting circles 399
